

## Splash & Onboarding Screen

### Features:

1. **Group Chatting:** Shows figures interacting with message bubbles.
2. **Video And Voice Calls:** Depicts a computer screen with video call participants.
3. **Cross-Platform Compatibility:** Shows a person interacting seamlessly across desktop, tablet, and mobile devices.

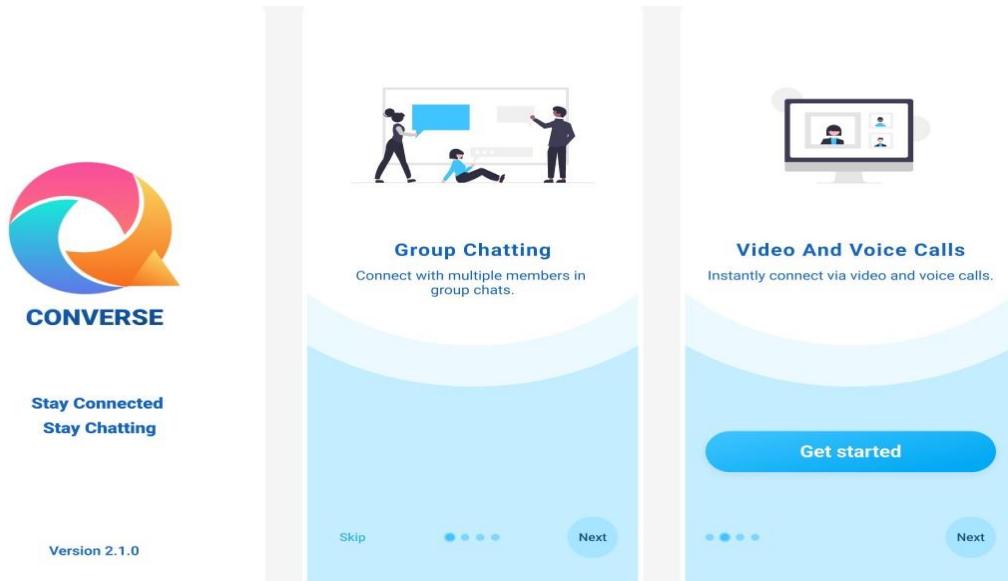

Fig 5.1 Onboarding Screen

Each screen features a prominent light blue "Get started" button, a "Skip" option, navigation dots indicating progress, and a "Next" button (except the last screen where it signifies completion). The background uses a soft, wavy light blue and white gradient throughout, creating a unified and approachable user experience.

## 5.2 Signup And Login page

### Features:

**Screen 1 (Phone Number Entry):** Features a "Login" header and prompts the user to "Enter your mobile phone." It includes a country code selector

(displaying a UK flag and "+44"), a pre-filled phone number field ("20 1234 5629"), and a message indicating an SMS code will be sent.

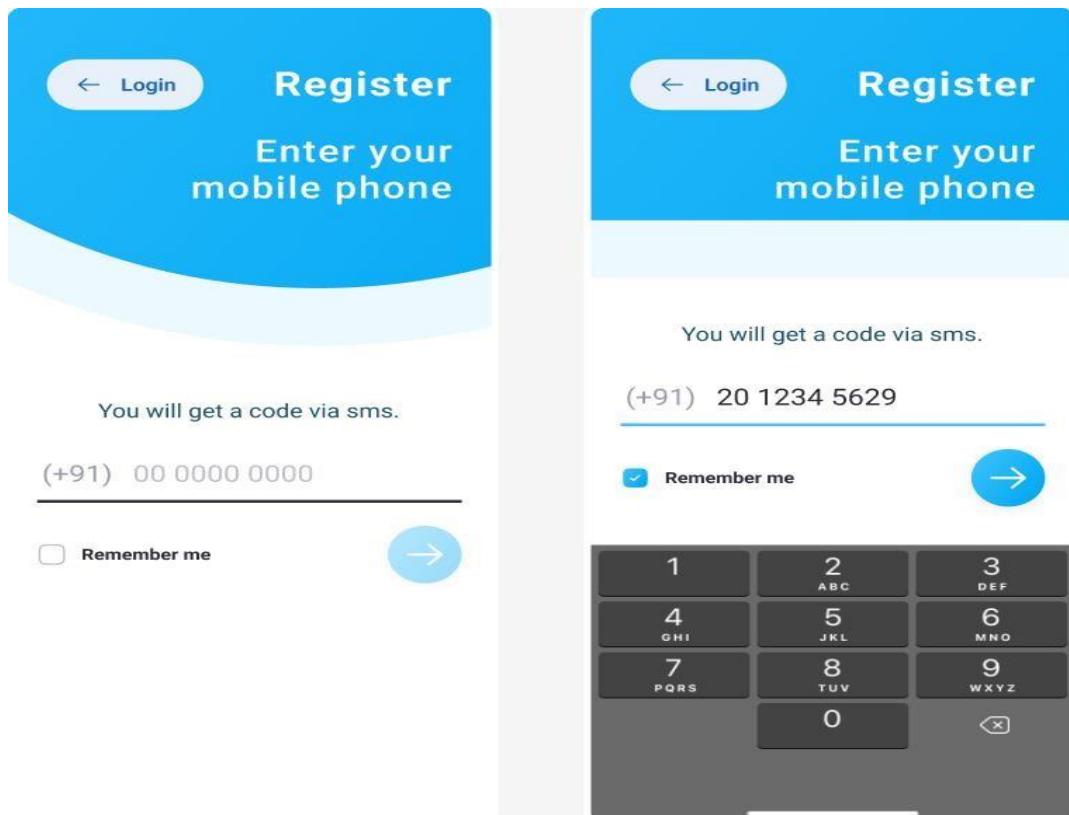

Fig 5.2(a) Phone Number Entry And OTP Generation page

**Screen 2 (OTP Entry - Valid):** The header now asks to "Enter OTP Code," confirming it was "Sent to : (+44) 20 1234 5629." A countdown timer ("00:25") and a "Resend Code" link are visible. Four input fields with pre-filled digits ("1 2 5 6") are shown for the OTP.

**Screen 3 (OTP Entry - Invalid):** This screen is nearly identical to Screen 2 but includes a red "Code Invalid" message below the OTP input fields, indicating an incorrect code was entered.

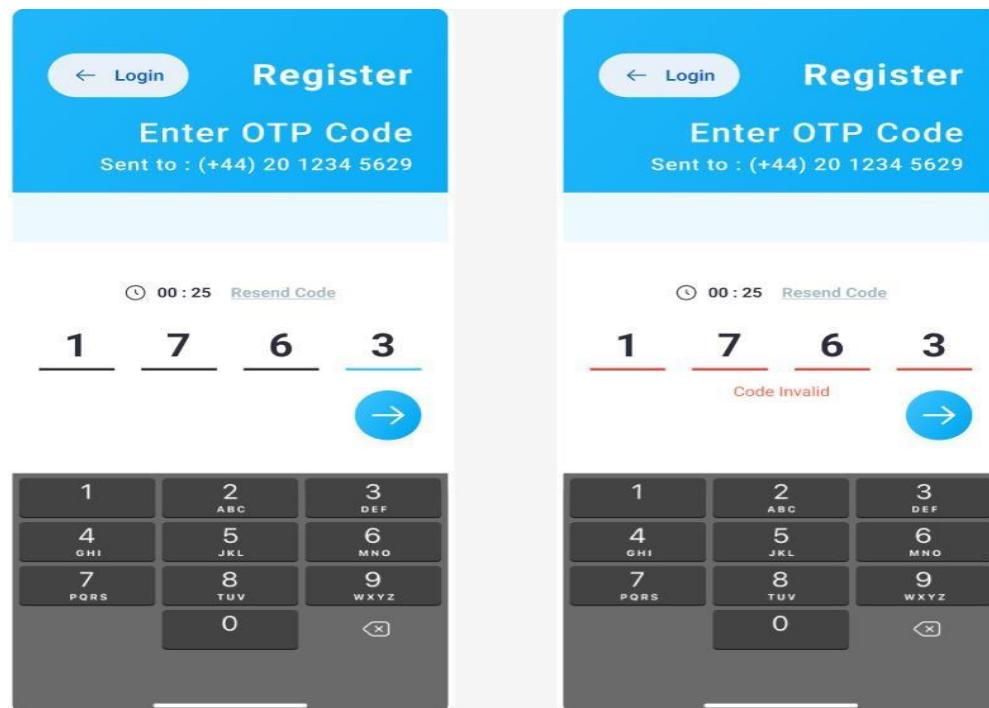

Fig 5.2(b) OTP valid and invalid page

The design utilizes a clean, blue and white color scheme with a prominent numeric keypad for easy input. The flow is straightforward, guiding the user through phone number entry and OTP verification with clear instructions and feedback. The consistent design elements across the screens ensure a cohesive user experience.

### 5.3 profile Name&Photo edit page

#### Features:

After successfully login or sign user can able to edit their profile with appropriate name and profile photo. This detail save automatically when user enter their details and save throughout their profile.

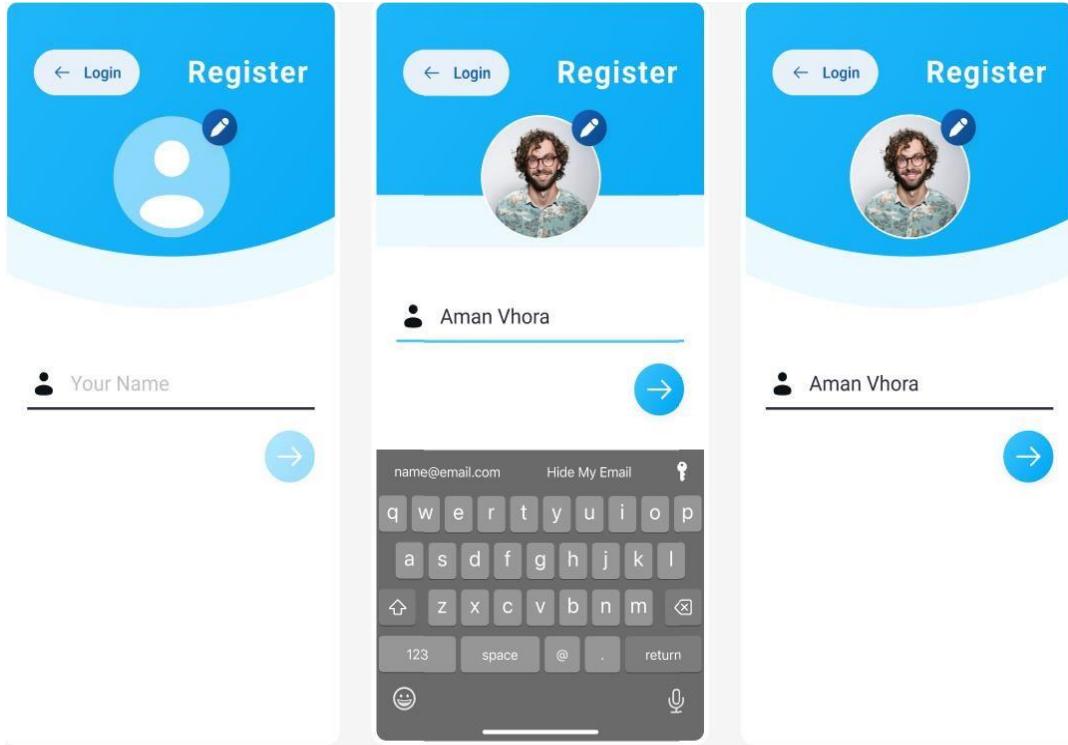

Fig 5.3 Profile name and photo edit page

## Help

### How do I create a new account?

To create a new account, please follow these simple steps:

1. At the main screen. Select Profile or More Tabs.
2. Click the Logout button to sign out of the current account.
3. At the Login screen. Above the login form, you will see the "Register" option. Click on it.
4. You will be prompted to enter your Phone Number for your account. Please make sure to use a valid Phone Number.
5. After entering your Phone Number, tap on the "Register" button.
6. A code will be sent to your phone number provided for verification. Please check your inbox and enter the code in the Verification screen to verify your account.
7. Press the arrow button to continue.
8. Once your account is verified. Fill in Your Name information.
9. Press the arrow button to continue. The app will automatically log you in.
10. You can set the required security level for your account or ignore it.
11. You are now done creating your account.

If you encounter any issues during the sign-up process, feel free to reach out to our support team for assistance.

## ← Term of Service

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum.

It is a long established fact that a reader will be distracted by the readable content of a page when looking at its layout. The point of using Lorem Ipsum is that it has a more-or-less normal distribution of letters, as opposed to using 'Content here, content here', making it look like readable English. Many desktop publishing packages and web page editors now use Lorem Ipsum as their default model text, and a search for 'lorem ipsum' will uncover many web sites still in their infancy. Various versions have evolved over the years, sometimes by accident, sometimes on purpose (injected humour and the like).

Li European lingues es membres del sam familie. Lor separat existentie es un myth. Por scientie, musica, sport etc, litot Europa usa li sam vocabular. Li lingues differe solmen in li grammatica, li pronunciation e li plu commun vocabules. Omnicos directe al desirabilite de un nov lingua franca: On refusa continuar payar custosi traductores. At solmen va esser necessi far uniform grammatica, pronunciation e plu sommun paroles. Ma quando lingues coalesce, li grammatica del resultant lingue es plu simplic e regulari quam ti del coalescent lingues. Li nov lingua franca va esser plu simplic e regulari quam li existent European lingues.

It va esser tam simplic quam Occidental in fact, it va esser Occidental. A un Angleso it va semblar un simplificat Angles, quam un skeptic Cambridge amico dit me que Occidental es. Li European lingues es membres del sam familie. Lor separat existentie es un myth. Por scientie, musica, sport etc, litot Europa usa li sam vocabular. Li lingues differe solmen in li grammatica, li pronunciation e li plu commun vocabules. Omnicos directe al desirabilite de un nov lingua franca: On refusa continuar payar custosi traductores. At solmen va esser necessi far uniform grammatica, pronunciation e plu sommun paroles.

The European languages are members of the same family. Their separate existence is a myth. For science, music, sport, etc, Europe uses the same vocabulary.

The languages only differ in their grammar, their pronunciation and their most common words. Everyone realizes why a new common language would be desirable: one could refuse to pay
